

The Ag Discovery in YELLOWSTONE

Alfalfa Coated Seed

bioensure®

biotango™

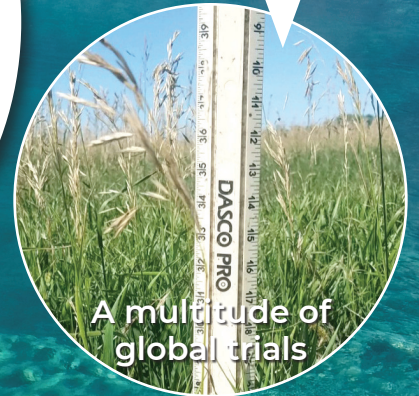

OMRI
LISTED
For Organic Use

Legacy Seed

NET WT. 50 lbs.
(22.68 kg.)

**Increase 1st year
yields by 15%
or more!**

*Research done in Yellowstone led to the ensuing discovery of BioEnsure microbes

INCREASE YIELDS 15%+ WITH COATED SEED AND USE LESS WATER

What We Have Learned About Coating Seed

Coated Seed COMBINES

the performance & innovation of
BioEnsure + BioTango
 with the expertise & integrity of

to provide Optimum Benefits for
 Germination & Production in your field

- ▶ Benefits to crops from seed germination through reproduction
- ▶ Coated seeds boost early emergence and stronger root systems.
- ▶ Synergizes with BioTango for higher yields under low and high stress conditions
- ▶ Can be applied as a seed treatment, in-furrow or as a foliar spray to achieve yield benefits along with wheel line or pivot injection
- ▶ Confers stress tolerance and NUE (nitrogen use efficiency)
